

CRC Freshman Chemistry Award

The CRC Freshman Chemistry Award honors the top 1% of freshman students for academic excellence in CHE 101-102, 105-106, and 107-108, based on cumulative rank, and is presented by the Department of Chemistry faculty. This elite group has been recognized through the presentation of this award since 1985, when the Department of Chemistry held its first awards ceremony. Each student receives a copy of the *CRC Handbook of Chemistry and Physics* and a certificate.
