

Hypercube Scholar Award

The generosity of Hypercube supports the annual Hypercube Scholar awarded to a graduating Chemistry or Medicinal Chemistry senior selected by the Undergraduate Affairs Committee. This award consists of the newest version of HyperChem software and a certificate signed by Neil S. Ostlund, the President and CEO of Hypercube, Inc. The award is presented at the Department awards ceremony on commencement day.

**2016 Recipient of the Hypercube
Scholar Award**

Stephen Hintermeier

Hypercube Scholar

The generosity of Hypercube supports the annual Hypercube Scholar awarded to a graduating Chemistry or Medicinal Chemistry senior selected by the Undergraduate Affairs Committee. This award consists of the newest version of HyperChem software and a certificate signed by Neil S. Ostlund, the President and CEO of Hypercube, Inc. The award is presented at the Department awards ceremony on commencement day.

Tish Ostlund of the Hypercube Scholar Program states, "As the world and its problems grow more and more complex, we are hopeful that our small contribution will aid young scholars to contribute solutions that we can only dream of now".
