

Joseph & Louise K. Tufariello Award for Academic Excellence in Chemistry

Dr. Joseph J. Tufariello

First presented in 2003, this award was established in memory of Dr. Joseph J. Tufariello's parents, Joseph and Louise K. Tufariello, who, in spite of their own limited education, encouraged and supported him in his quest for the highest education possible. This award is presented annually to an outstanding graduating senior in the Department of Chemistry as selected by the Undergraduate Affairs Committee.

**2016 Recipient of the
Joseph and Louise K. Tufariello Award
for Academic Excellence in Chemistry**

Alexandra Van Hall

Joseph & Louise K. Tufariello Award for Academic Excellence in Chemistry

Dr. Joseph J. Tufariello

First presented in 2003, this award was established in memory of Dr. Joseph J. Tufariello's parents, Joseph and Louise K. Tufariello, who, in spite of their own limited education, encouraged and supported him in his quest for the highest education possible. This award is presented annually to an outstanding graduating senior in the Department of Chemistry of the University at Buffalo as selected by the Undergraduate Affairs Committee.

**2015 Recipient of the
Joseph and Louise K. Tufariello Award
for Academic Excellence in Chemistry**

Joseph & Louise K. Tufariello Award For Academic Excellence in Chemistry

Dr. Joseph J. Tufariello

First presented in 2003, this award was established in memory of Dr. Joseph J. Tufariello's parents, Joseph and Louise K. Tufariello, who, in spite of their own limited education, encouraged and supported him in his quest for the highest education possible.

Dr. Tufariello was a member of the UB Chemistry faculty from 1963 to 2003. His research focused on reactions of 1,3-dipolar compounds; synthesis of natural products; organometallic chemistry; and synthesis and chemistry of strained or otherwise unique carbocyclic systems. He served as Department Chair (1984 to 1991) and as Dean of the former Faculty of Natural Sciences and Mathematics (1991 to 1998).

This award is presented annually to an outstanding graduating senior in the Department of Chemistry of the University at Buffalo as selected by the Undergraduate Affairs Committee.

**2014 Recipient of the Joseph & Louise Tufariello Award for
Academic Excellence in Chemistry**

Patrick T. Saitta
