

## **William E. Townsend Scholarship**

**Mr. William E. Townsend, UB Class of 1950 with a BA degree in Chemistry, in order to recognize worthy students at his alma mater, established the William E. Townsend Scholarship in 1992. This award is presented annually to one or more freshman chemistry majors, preferably from the Western New York area, with demonstrated financial need and possession of good personal characteristics in terms of attitude, personality, citizenship and leadership. Recipients are selected by the Department of Chemistry Undergraduate Affairs Committee. The award may be presented to each awardee for up to four consecutive years, provided they remain a chemistry major in good standing with the University.**
