

# DEPARTMENT OF CHEMISTRY

Spring 2011

## ANALYTICAL/MATERIALS CHEMISTRY SEMINAR SERIES

Wednesdays at 12:00 Noon  
NSC 306

(\*unless noted otherwise)

**January 14**

\*FRIDAY in NSC 306  
at 12:00 Noon

**Prof. Larry Burggraf**

Dept. of Engineering Physics, Air Force Institute of Technology  
*"Positron Chemistry at AFIT"*

**February 16**

**Prof. Mahesh Mahanthappa**

Dept. of Chemistry, University of Wisconsin - Madison  
*"The Middle Matters: New Finds in ABA Triblock Copolymers"*

**February 23**

**Dr. Peter B. Crowley**

School of Chemistry, National University of Ireland, Galway  
*"Exploring the Protein Surface: In the Test Tube and Inside Cells"*

**March 2**

**Prof. Michael A. Brook**

Dept. of Chemistry, McMaster University  
*"Interfacial Structuring Using Silicon Chemistry"*

**March 30**

\*in 209 Norton Hall  
at 11:00 AM

**Prof. Michael S. Milligan**

Dept. of Chemistry, SUNY College at Fredonia  
*"Screening for Emerging Contaminants in Great Lakes Fish"*

**April 6**

**Prof. Alan J. Rabideau**

Civil, Structural & Environmental Engineering Dept., University at Buffalo  
*"Geochemical Modeling of Innovative Groundwater Treatment at the West Valley Demonstration Project"*

**May 25**

**Prof. Gary W. Small**

Dept. of Chemistry and the Optical Science Technology Center,  
The University of Iowa  
*"Environmental Remote Sensing by Passive Infrared Spectroscopy"*
