

DEPARTMENT OF CHEMISTRY

ANALYTICAL/MATERIALS CHEMISTRY SEMINAR SERIES

Wednesdays at 12:00 Noon
in NSC 306

FALL 2015

October 21

Prof. James V. Cizdziel, Dept. of Chemistry and Biochemistry,
The University of Mississippi

“Analytical Methods for Measuring Mercury Species in Environmental Monitoring”

October 28

Prof. Dharni Vasudevan, Department of Chemistry, Bowdoin College

*“Pharmaceutical Interactions at the Solid-Water Interface:
Implications for Understanding Sorption to Soils and Passive
Sampling of Natural Waters”*

November 4

Dr. Hélène Bolvin, Laboratoire de Chimie et de Physique Quantiques,
Universite Paul Sabatier Toulouse, France

“Molecular Magnets: An Introduction to Theoretical Models”

November 11

A. Ben Wagner, Physics Librarian, University at Buffalo

“Open Science: Get Ready for Federal Mandates”
